### PLAN AHEAD: 10 DAY SCHEDULE

- Sanitary Sewer and water main installation along the north side of the road.

### PROJECT UPDATE

The City's Contractor, Van Kirk Bros. Contracting, has started on the sanitary sewer, water main and storm sewer improvements to Capehart Road from US Highway 6 west 1/4 of a mile. Utility construction is anticipated to take 3 weeks, weather permitting.

Also, concrete pavement will be placed after the completion of the utility work which is tentatively scheduled to start on or around October 5th, weather permitting.

The project will require short road closures for the utility work and a long-term road closure for the street paving which will require local traffic to detour.

We appreciate your patience during construction of the project.

Road will be constructed by slip-form paving equipment.
